Amazon Kingdom

About this Game

This is a 5 reel 4 row video slot game.

This game has 30 lines.

It features Free Spins and Super Free Spins with multipliers, Queen's Bonus, Wild Scrolls, and Bonus Symbols.

General

Line wins begin with the leftmost reel and pay left to right only on adjacent reels according to the PAYTABLE.

Only the highest win is paid per line.

Multiple wins can be awarded per spin.

It is not possible to trigger Queen's Bonus within Free Spins and Super Free Spins.

The Paytable displays the payout for each symbol combination based on the current bet.

Queen's Bonus and Free Spins of any type cannot trigger simultaneously.

Wild Symbols

Wild Symbols substitute for all symbols except Free Spins Symbols and Bonus Symbols.

Wild symbols substitution pays the highest possible winning combination on a line according to the PAYTABLE.

Wild symbols can create their own winning combination when landing in a payline combination.

Bonus Symbols Collection

Bonus Symbols appear in the base game.

Each reel has a Bonus Holder located above it.

Each Bonus Symbol that lands is added to its respective Bonus Holder and also collected in the Queen's Bonus area.

Collect 3 Bonus Symbols to activate the Wild Scrolls feature on that reel.

Bonus Symbols do not appear on active Wild Scrolls reels.

Bonus Holders, Wild Scrolls, and remaining reels persist for each bet level.

Collecting 1 or more Bonus Symbols gives a random chance of triggering the Queen's Bonus feature.

Only the Bonus Symbols collected on the current spin contribute to the chance of triggering the Queen's Bonus.

The graphical collection pot in the game is purely for visual entertainment purposes and as such does not influence awarding the Queen's Bonus.

Wild Scrolls

Activate the Wild Scrolls in the base game, Free Spins, and Super Free Spins.

Wild Scrolls add expanding sticky Wilds to the reel while active.

When Wild Scrolls is activated in the base game, on the next spin a Wild Scroll Symbol is placed on the top position of the triggering reel.

On every subsequent spin, the Wild Scroll Symbol expands down 1 position on the reel.

Once the Wild Scroll Symbol has expanded to the bottom position, the feature ends and the Wild Scroll is removed on the following spin.

Free Spins Symbols are visible through the Wild Scrolls.

Free Spins, Super Free Spins and Queen's Bonus can be triggered during Wild Scrolls.

Queen's Bonus

There are 4 types of Bonus coins.

Each Bonus type corresponds to a cash prize.

In total, there are 12 Bonus coins.

The cash prizes are: 15x, 40x, 200x, and 5000x bet.

Match 3 of the same Bonus coin type to win the corresponding cash prize according to the PAYTABLE.

Free Spins

Free Spins symbols appear on reels 2, 3, and 4 in the base game.

Land 3 Free Spins Symbols to trigger an indefinite number of Free Spins.

Free Spins has a multiplier of x2.

Every individual win in Free Spins is multiplied by the multiplier.

At the start of Free Spins, Wild Scrolls are active on reel 3, starting from the top reel position.

Land a regular Wild on any reel to trigger Wild Scrolls.

Wild Scrolls start from the same reel position as the triggering Wild.

Regular Wilds do not appear on active Wild Scroll reels.

The feature ends when Wild Scrolls are no longer present on the visible reel area.

All bets and lines played are the same as the spin that triggered the feature.

Super Free Spins Collection

Land 2 Free Spins Symbols in the base game to add 1 point to the Super Free Spins Upgrade Meter.

Landing more than 2 Free Spins Symbols will not contribute any points to the Super Free Spins Upgrade Meter.

Collect 20 points to upgrade Free Spins to Super Free Spins.

The next time 3 Free Spins Symbols land, Super Free Spins will be triggered instead of Free Spins.

The Super Free Spins Upgrade Meter cannot collect more than 20 points.

The Super Free Spins Upgrade Meter persists for each bet level.

Super Free Spins

Super Free Spins has a multiplier of x5.

At the start of Super Free Spins, Wild Scrolls are active on reels 2 and 4, starting from the top reel position.

When the feature ends, the Super Free Spins Upgrade Meter is reset to 0.

Amazing Catch Power Combo™

About this Game

This is a 6 reel 4 row video slot game.

This game has 4096 Ways.

It features money symbols, token symbols, and Free Spins with 3 different features Giant Reels, Multi-Collect, and Cash Reel.

General

Way pays if the same symbols appear in succession in any position on adjacent reels, from the leftmost position to the rightmost position according to PAYTABLE.

Money symbols are not included in Way pays.

Only the highest win per Way is paid.

Simultaneous wins on different Ways are added.

Wild symbols substitute for all symbols except money symbols, token symbols, and Collect symbols.

Wild symbols substitution pays the highest possible winning combination on a Way according to the PAYTABLE.

Money Symbols

In the base game and Free Spins, money symbols can appear anywhere on the reels.

Each money symbol has a random value or prize assigned to it.

The values are: 1x, 2x, 3x, 4x, 5x, 7x, and 10x the current bet.

The MINI prize awards 15x the current bet.

The MINOR prize awards 40x the current bet.

The MAJOR prize awards 200x the current bet.

The MEGA prize awards 5000x the current bet.

The MEGA prize can only be awarded once in a game round.

Collect Symbols

The Collect symbol exists only on reel 6 in the Base Game and Free Spins.

If the Multi-Collect feature is active in Free Spins, Collect symbols may land on any reel.

When a Collect symbol lands, all money symbols landed in the same spin will have their respective values or prizes added up and awarded.

Token Symbols

The game has 3 different token symbols.

The tokens represent the Giant Reels, the Multi-Collect, and the Cash Reel features.

Token symbols exist on all reels in both the base game and Free Spins.

The graphical collection pots in the game are purely for visual entertainment purposes and, as such, do not influence the chance of awarding Free Spins.

Free Spins Trigger

Every time a token lands there is a chance to trigger the Free Spins feature.

If 2 different tokens land at the same time and trigger Free Spins, then both features are active in Free Spins.

If 3 different tokens land at the same time and trigger Free Spins, then all 3 features are active in Free Spins.

Free Spins

Free Spins always starts with 10 Free Spins.

Any time a non-active token lands, there is a chance to trigger the corresponding feature.

Triggering another feature inside Free Spins awards +3 SPINS.

Only 1 non-active feature can be activated per spin inside Free Spins.

Any time a token representing an already active feature lands, +3 SPINS may be awarded.

Free Spins with Giant Reels feature

During the Free Spins, the reel area expands from 6x4 to 6x6 and increases the number of Ways to win from 4,096 up to 46,656 Ways.

Free Spins with Multi-Collect feature

During the Free Spins, Collect symbols may land on all reels.

When multiple Collect symbols land, all money symbols landed in the same spin will have their respective values or prizes added up and awarded to the player once for each Collect symbol.

Free Spins with Cash Reel feature

On each spin during the Free Spins, one randomly selected reel from 2 to 5 will contain only money symbols.

Adventures Of Doubloon Island™

About this Game

This is a 5 reel 3 row video slot game.

The objective of the game is to spin the reels so the symbols land in different combinations.

Winning combinations are highlighted on the reels and a payout is awarded.

Playing the Game

The balance is displayed in currency and is available in the console bar.

Select the spin button to spin the reels.

Select the stop button to stop the current reel spin. This can also be done by selecting the reels.

This does not influence the results of the spin.

Once the reels stop, winning combinations are highlighted. The win amount is displayed in the win box.

If there is no winning combination, the game is completed.

Payline Rules

The number of paylines played is fixed.

A payline is a pattern of adjacent symbol positions that runs in a line across the reels.

Payline wins run from left to right and right to left, starting from the first and last reel respectively.

Payline win payouts are based on the initial bet placed.

This game includes 20 paylines.

To calculate the Line Bet, divide the Total Bet by the number of fixed paylines.

All line wins are multiplied by the bet per line.

Payout Rules

The payout value is based on the winning combination formed.

Only the highest winning combination is awarded per symbol combination.

The Paytable displays the payout for each symbol combination based on the current bet.

The total payout is the sum of all payline wins resulting from a spin.

If multiple winning combinations land on a single payline, only the highest win is awarded.

Link&Win™

Each Link&Win™ symbol that lands is collected in the Link&Win™ Meter.

The Link&Win™ Meter resets on every spin.

The Link&Win™ Meter is purely visual and has no affect on gameplay.

Link&Win™ feature is triggered when 6 to 14 Link&Win™ symbols land.

Link&Win™ can be triggered in both base game and free spins.

All triggering Link&Win™ symbols are locked on the reels.

The remaining unlocked symbol positions spin independently.

Respins have special reels with Link&Win™ symbols and blank positions only.

Link&Win™ begins with 3 respins.

All additional Link&Win™ symbols that land will lock on the reels.

If any additional Link&Win™ symbols land, the number of respins resets to 3.

Link&Win™ ends when no respins remain or when 15 Link&Win™ symbols are locked on the reels.

There are Doubloon and Skull Doubloon Link&Win™ symbols.

Each Doubloon Link&Win™ symbol awards a cash prize.

Each Skull Doubloon Link&Win™ symbol awards the associated Jackpot.

Mini, Minor, and Major can be awarded by the Skull Doubloon Link&Win™ symbol.

Mini, Minor, Major, and Mega can be awarded by the Skull Doubloon Link&Win™ symbol when the Win Booster™ is activated.

A Jackpot is awarded for each associated Skull Doubloon Link&Win™ symbol that lands.

Filling the reels with 15 Link&Win™ symbols awards the Mega Jackpot.

The Mega Jackpot is added to the sum of the prizes awarded on the Link&Win™ symbols.

Link&Win™ symbols cannot be substituted by the Wild symbols.

Win Booster™ Rules

Win Booster™ increases Jackpot and cash prize values.

You can choose to activate or deactivate the Win Booster™ in the base game.

When the Win Booster™ is deactivated, only Mini, Minor, and Major Jackpots can be awarded by the Skull Doubloon symbol.

When the Win Booster™ is activated, the Mega Jackpot can also be awarded by the Skull Doubloon symbol.

The boosted bet consists of your current bet plus an extra bet.

The extra bet is equal to 0.5 times the current bet.

Some settings and features may not be available in this game.

Scatters pay in any position.

Only the highest win amount is paid per Scatter symbol combination.

Scatter wins are multiplied by the total bet.

Scatter symbol wins are added to line wins. In the event of a Scatter symbol win and a line win, both wins are paid out, as the Scatter symbol does not need to appear on a payline to win.

Scatter symbols cannot be substituted by the Wild symbols.

Carrot Wilds Feature

Activate the Carrot Wilds in the base game, Free Spins and Super Free Spins.

Carrot Wilds feature adds expanding sticky Carrot Wild symbols to the reel while active.

When the Carrot Wilds feature is activated in the base game, on the next spin a Carrot Wild symbol is placed on the top position of the triggering reel.

On every subsequent spin, the Carrot Wild symbol expands down 1 position on the reel.

Once the Carrot Wild symbol has expanded to the bottom position, the feature on that reel ends and the Carrot Wild symbol is removed on the following spin.

Free Spins symbols are visible through the Carrot Wild symbols.

Trigger Free Spins, Super Free Spins and Bonus Game during Carrot Wilds feature.

Bonus Game Trigger

Collecting 1 or more Bonus Tokens scattered on screen gives a random chance at triggering the Bonus Game feature.

The Bonus Tokens can only appear on mid symbols on all reels in the base game.

Only the Bonus Tokens collected on the current spin contribute to the chance of triggering Bonus Game.

The graphical collection pot in the game is purely for visual entertainment purposes and as such does not influence awarding the Bonus Game.

If Free Spins or Super Free Spins triggers and Bonus Tokens are collected simultaneously, only the Free Spins or Super Free Spins feature plays out.

Bonus Game

There are 4 types of symbols: Mini, Minor, Major and Mega.

Pressing a selectable item will reveal a symbol.

Revealing 3 of the same symbol awards the corresponding cash prize according to the PAYTABLE.

The Bonus Game feature ends when a prize has been awarded.

Free Spins

Free Spins symbols appear anywhere on reels 2, 3 and 4 only in the base game.

Land 3 Free Spins symbols to trigger an indefinite number of Free Spins.

Free Spins begins with a multiplier of x1.

After every spin, the multiplier increases by 1.

Every individual win in Free Spins is multiplied by the current multiplier.

At the start of Free Spins, Carrot Wilds feature is active on reel 3, starting from the top reel position.

Land a Carrot Wild symbol on any reel to trigger Carrot Wilds feature.

Carrot Wilds feature starts from the same reel position as the triggering Carrot Wild symbol.

Carrot Wild symbols do not appear on active Carrot Wilds feature reels.

The feature ends when Carrot Wild symbols are no longer present on the visible reel area.

All bets and lines played are the same as the spin that triggered the feature.

Super Free Spins Collection

Land 2 Free Spins symbols in the base game to add 1 point to the Super Free Spins upgrade meter.

Landing more than 2 Free Spins symbols will not contribute any points to the Super Free Spins upgrade meter.

Collect 20 points to upgrade Free Spins to Super Free Spins.

Payline Rules

This game includes 20 paylines.

The number of paylines played is fixed.

A payline is a pattern of adjacent symbol positions that runs in a line across the reels.

A win is awarded when matching symbols land adjacent to each other on a payline.

Payline wins run from left to right, starting from the first slot reel.

Bet Rules

Each spin played costs a total bet amount.

The initial bet is the current total bet divided by the payline cost of 10.

The total bet is based on the initial bet placed, multiplied by the cost of the paylines played.

Payout Rules

Wins are multiplied by the total bet.

The payout value is based on the winning combination formed.

The total payout is the sum of all payline wins resulting from a spin.

Only the highest winning combination is awarded per symbol combination.

The Paytable displays the payout for each symbol combination based on the current bet.

The win up to value displayed is rounded down, and is approximately the highest possible win achievable on a single spin.

Wild Symbols

Granny Wild, Zombie Wild, Walking Wild and Weapon Wild symbols are Wild symbols.

Wild symbols can substitute for other symbols to complete winning combinations.

Wild symbols can substitute for all symbols except Scatter and Bonus symbols.

When a winning line starts with a Granny Wild, Wilds will substitute to create a highest paying combination.

Granny Wild symbols appear on reel 1 only.

Zombie Wild appears on reels 3 and 5 only.

When a Granny Wild and one or more Zombie Wild land on the same spin, the Granny Wild attacks the Zombie Wild and three additional wilds per Zombie Wild are randomly placed on the reels.

Walking Wild can land on reels 3, 4 or 5.

Walking Wild can be 2, 3 or 4 rows high.

Walking Wild that land move one reel to the left at the beginning of the next spin.

When a Walking Wild reaches the first reel, it is removed from the board on the next spin.

The position of any Walking Wild on the reels is saved per bet level.

Weapon Wild symbols appear in Free Spins only.

Scatter Symbols

Free Spins symbols are Scatter symbols.

This symbol appears on reels 2-4 only.

This symbol does not have a payout.
