Other Symbols

FU BAT

- FU BAT substitutes for all symbols, excluding scatter symbols, and it appears on reels 2-5 only.
- When one or more FU BAT lands on the reels, there is a random chance to be awarded the PICKER FEATURE.
- FU BAT appears on all reels excluding reels 1 and 6.

GONG

- GONG is a scatter symbol, which appears on reels 1-6 only.
- Land 4 or more GONG symbols on consecutive reels starting from the far left reel to be awarded the FREE SPINS FEATURE.

Picker Feature

- When one or more FU BAT appears on the reels, coins will be awarded to the COIN POT.
- After coins are added to the COIN POT, there is a random chance for the PICKER FEATURE to be awarded.
- The accumulation of coins in the COIN POT has no impact on the chance to trigger the PICKER FEATURE.
- There is a chance for this feature to be triggered when one or more FU BAT appears on the reels.
- When this feature is awarded, the player is shown a screen with 15 coins.

- Each coin corresponds to a FREE SPINS OPTION.
- Select coins until three of a kind are chosen.
- Available awards are 10, 12 or 15 free spins, with a win multiplier of x6, x4 or x2 respectively.
- If the PICKER FEATURE is triggered during the FREE SPINS FEATURE, alternative prizes can be won compared to when the PICKER FEATURE is triggered from the base game. Select coins until three of a kind are chosen. Available awards are 10, 12 or 15 free spins.
- The player is then returned to the FREE SPINS FEATURE. The current win multiplier is unaffected.

Free Spins

- Land 4, 5 or 6 GONG symbols on consecutive reels, beginning with the far left reel to be awarded 8, 10 or 12 free spins respectively. This applies in the base game only.
- Land 3 or more GONG symbols on consecutive reels starting with the far left reel, to be awarded additional free spins - 3, 4, 5, or 6 GONG symbols award 8, 10, 12 or 15 additional free spins, respectively.
- Only GONG symbols which land on consecutive reels starting on the first reel will be counted towards the bonus trigger.
- Only one GONG symbol counts towards the FREE SPINS FEATURE trigger per reel.
- Alternatively, free spins can be awarded from the PICKER FEATURE.
- The win multiplier will begin at x1, unless a greater win multiplier is awarded from the PICKER FEATURE.
- During Free Spins, the win multiplier will increase by 1 each time a group of winning combinations is awarded. This is defined as one or more winning combination which causes a single cascade.
- The win multiplier will be applied for every win during a free spin. This will always be applied to a win before the win multiplier has been increased, not after. There is no limit for the win multiplier.
- Additional free spins may be awarded during the FREE SPINS FEATURE which are added to the remaining number of free spins.
- The FREE SPINS FEATURE ends when no free spins remain. The FREE SPINS FEATURE is played on an alternate set of reels. This feature is played automatically.
- The bet per spin and the number of gold symbols chosen are the same as the spin when the FREE SPINS FEATURE was triggered.

Reels

- The game consists of 6 main reels. Reels 1 and 6 can each show between 2 and 7 symbols per spins. Reels 2, 3, 4 and 5 can each show between 2 and 6 symbols per spin. There is also an additional “bottom reel” which consists of 4 rows, and spins horizontally.
- The bottom reel will contribute to winning combinations on the main reel set by acting as an extra row for reels 2 - 5.

- When there is one or more winning combination, the winning symbols will explode, and the new symbols will take their place. Symbols will drop down on the main reels, or fill in from the right on the bottom reel. Symbols do not transfer between the two reel sets.
- Wins are calculated before the winning symbols explode. Any new winning combinations will be evaluated once the new symbols fill into the reels. The total amount for the spin is awarded when no more cascades occur.

Game Rules

PAYOUTS

- Each spin can have up to 117,649 MegaWays™ to win!
- The number of symbols per reel does not affect the payout per symbol.
- Wins are awarded on left to right adjacent symbols regardless of size.
- At the end of every spin, the number of ways for the spin is displayed above the reel set.
- Only highest winner paid per winning combination. Wins occur on adjacent reels, beginning with the far left reel. Wins on multiple ways are added together.
- When there is one or more winning combination, the winning symbols will explode, and new symbols will take their place. Symbols will drop down on the main reels, or fill in from the right on the bottom reel. Symbols do not transfer between the two reel sets.

POTIONS

On each spin, between 1 and 5 POTIONS will randomly appear above reels 2 to 6.

The potion will either be RED or BLUE.

During each winning spin, after the winning combinations are removed, each potion will drop down to the lowest available position on its reel.

In the event that the potion reaches the bottom row of the reels it will drop into the cauldron underneath and trigger an appropriate modifier.

BLUE POTION

When a BLUE Potion is triggered, the corresponding reel expands to double its original height and new symbols then fill the reels.

A RED POTION is then added above the reels and can cascade down to trigger as before.

During FREE SPINS, all expanded reels are locked at that height for the remainder of FREE SPINS.

Reels expanded in the base game are also locked at that height for the remainder of FREE SPINS, if triggered on the same spin that FREE SPINS was awarded.

Only RED POTIONS may be positioned above an expanded reel.

RED POTION

When a RED POTION is triggered, all symbols on the corresponding reels become WILD.

Once all wins have been evaluated, and the initial cascade is complete, either a RED or BLUE POTION will be randomly positioned above the reel.

If a RED POTION is triggered during FREE SPINS, the reel may display a MEGAWAYS® multiplier. This multiplies the number of symbols on the reel by the multiplier value shown.

WILD

WILD substitutes for all other symbols except the BONUS symbol, RED and BLUE POTIONS.

WILD symbols appear only after a red potion has activated

FREE SPINS

BONUS symbols can appear on any reel.

When a BONUS symbol has landed on a reel it adds one to the BONUS METER at the side of the reels, and they explodes, and new symbols fill the reels.

The BONUS METER is cleared when no more cascades occur.

FREE SPINS are triggered when 4 or more BONUS symbols are collected in the manner. The number of free spins awarded is shown below.
